

Our Offer... It's Yours!

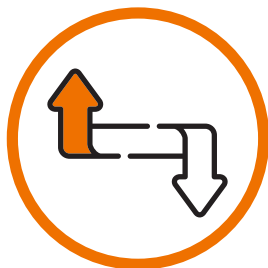

HIGH PERSONALISATION

We manufacture **custom-made machines** to meet your and your customers' requirements. But each Artema Pack system always comes with an additional component: our **experience**. We are **solution providers**: your goals are our goals.

FLEXIBLE MACHINES

Artema Pack machines **can be integrated into any production line** and adapt to a variety of primary and secondary packaging equipment. And tomorrow? Thanks to our **easy upgrades**, our solutions evolve with customers. Together, we make flexibility a constant value.

ADAPTIVE LAYOUTS

We have a long experience in **planning plant layouts**. We analyse your customers' requirements and available spaces, designing solutions with **safety and efficiency in mind**.

FULL AUTOMATION

We integrate the **best automation systems** to develop packaging lines with **high productivity** and efficiency. Our goal is to provide solutions that work in **synergy** to help your business thrive.

Our services... they're yours!

SINGLE CONTACT PERSON

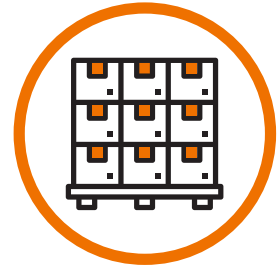

Machinery, consultation, services. Using our resources, you can offer your customers **complete and reliable solutions**. While we work "in the background" to make your job easier and **support you in your decision-making process**.

AFTER SALES

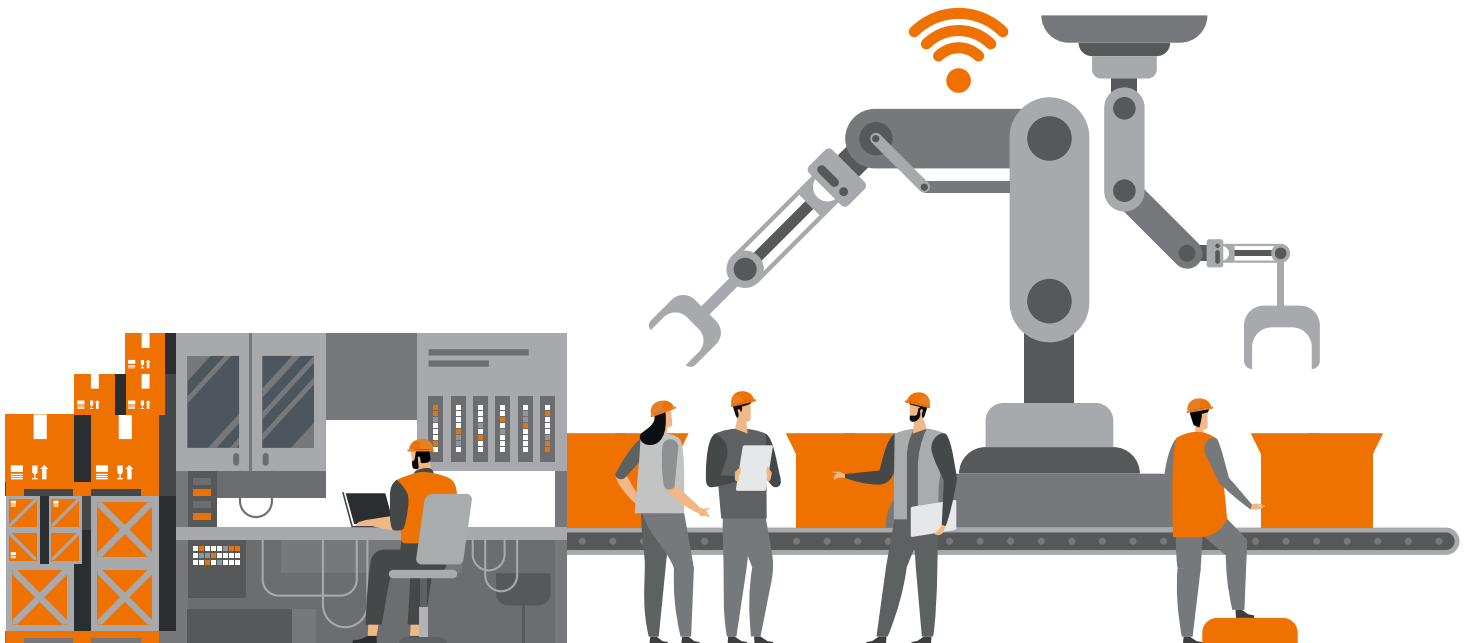

Spare parts within a short time? We've got you covered. A **maintenance plan** tailored to your needs? No problem. Our team is on hand to provide your customers with **support services** that meet their expectations and requirements.

ENGINEERING

We work with you to **optimise processes** and deliver consistent standards throughout the production line. Packaging, performance and control go hand in hand, **from packaged products to pallets** ready for shipping.
