

Shrink Wrapping Machine

A **GALDI** COMPANY

ARTEMA PACK
packaging & automation

Shrink Wrapping Machine AP-TE-830

HIGH COMPETITIVENESS

Good value for money, lower packaging costs, very low consumption: a competitiveness-driven machine!

MULTI-FORMAT

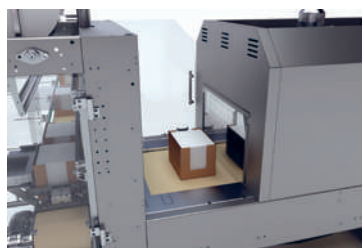

Single and multi-pack configurations are available, ranging from film-only to vertical and/or horizontal layer pad packaging to provide greater support and protection.

ENERGY SAVING

The oven, fitted with an operating temperature control device, is highly efficient (20% less than average consumption). Film thickness can be reduced (up to 25 μ), thus limiting plastic consumption.

VERSATILITY

The machine can pack a wide range of primary packaging types, such as Brick (juice boxes), Gable Top cartons, bottles, bags, and more.

TECHNICAL FEATURES

DIMENSIONS (mm)	3500x4200x2100
INFEED HEIGHT FROM GROUND LEVEL (mm)	900
OUTFEED HEIGHT FROM GROUND LEVEL (mm)	900
INSTALLED POWER AND AVERAGE CONSUMPTION	21kW-400V Average 12kW
WEIGHT (Kg)	800
CAPACITY	20 box/min
COMPRESSED AIR	400 nl/min. - 6 bar
